# Sela Roofing

Sela Roofing is the leading roofing, siding, window and gutter contractor in the Minneapolis Twin Cities area with more than 100,000 satisfied customers. Since 1982, Sela Roofing's commitment has been: Quality, Integrity, Service and Value and they have established their reputation by standing behind this commitment.

With nearly four million square feet of experience with Versico membrane alone, Sela Roofing has the knowledge, experience and technology required to tackle virtually any roofing project, from new construction to re-roofing to roof system maintenance and repairs.

In order to become a Versico-authorized contractor, a company must undergo training conducted by Versico that covers the installation, maintenance and repair of every Versico roofing system, including its EPDM, TPO and PVC single-ply membranes. By undergoing periodic training updates, Sela Roofing employees ensure their continued knowledge and understanding of the latest innovations, technology and procedures from Versico.

Since becoming a Versico-authorized contractor, Sela Roofing has completed 170 installations totaling nearly four million square feet of Versico roofing systems. The number and quality of its installations has earned Sela Roofing King's Court status in Versico's Contractor Program, an honor reserved for Versico's most prominent and successful authorized contractors. In order to achieve King's Court status, a contractor must ensure that its installations meet Versico's specifications and rigorous standards of excellence in quality service and craftsmanship. As a King's Court Versico-authorized contractor, Sela Roofing can offer extended warranty coverage on Versico roofing systems.
