Re: Sela Commercial Roofing

To Whom It May Concern:

I have contracted with Sela Commercial Roofing for the re-roof of three commercial properties over the last 5 – 6 years and have been pleased with the final product on all three roofs. Troy Hughes and his group have installed both built-up (BUR) and EPDM roof systems for me – on both office and office/warehouse properties.

Although any roofing project is not without its challenges, I have found Sela's performance to be on par with the other highly regarded roofing companies in the area. Sela has minimized the impact on my tenants during roofing projects and when a challenge has arrived, they have promptly resolved any issues in a professional manner. In all instances working with Sela Roofing I have received the quality roof system that I expected to receive.

Mr. Hughes and his crew supervisors have been excellent at communicating project expectations to myself and to my tenants. They have gone the extra mile to make sure clean up of the property exterior and interior is completed in a timely and satisfactory manner.

I plan to use Sela Commercial Roofing in the future and would not hesitate to recommend them to other property owners and managers.

Sincerely,

Zachary T. Eliason
Property Manager
