Mr. Paz Sela
Sela Roofing, Inc.

Dear Mr. Sela,

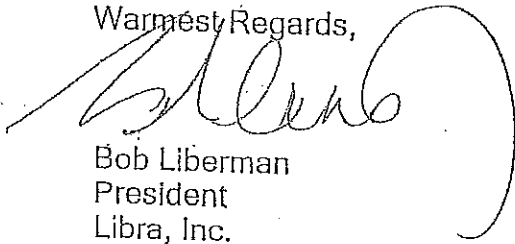

I have postponed writing this letter but can wait no longer. The true test of your workmanship has taken place. Our 250,000 square foot roof has passed the test with flying colors! After listening to the radio the other day to confirm the incredible amount of rain we received earlier this week, the jury is in. Without a doubt- you are my roofing hero!

I spent some time inspecting the roof yesterday and was absolutely thrilled that there were virtually no problems to report. This came as a real surprise to me. In my many years of exposure in property rental and building ownership, I was not expecting to be so pleased.

From the very start of the project through the very end, I have nothing but praises for your personnel, service and workmanship. You made the process hassle free and did what you said you would do when you said you would do it! From the beginning handshake to seal the deal, through the clean up, Troy and the rest of the crew were a pleasure to work with.

I rate your service *TRIPLE A!* I salute Sela Roofing- my roofer for life! I will recommend you with confidence to anyone in need of your services.

Warmest Regards,

Bob Liberman
