Re: Reroofing Project

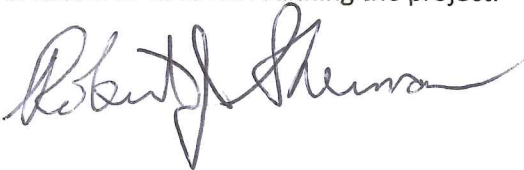

As someone who has had more than a little building experience, I would like to extend my most sincere compliments to your company for the excellent work done on our reroofing project. Every aspect of the work, from the initial site visit, through the tear-off, the lay-down of the insulation and membrane and the flashing was done carefully and efficiently.

Our site presented a number of challenges since we are located in a very busy commercial area with heavy traffic in our parking lot. This required careful coordination to insure adequate parking space for dumps, materials and the crane. It also required some added safety and schedule adjustments to avoid disruption of our Childhood Center play and nap timetable.

Every job has unexpected problems as the building is opened up and ours was no exception. All of our "surprises" were overcome with great efficiency.

All members of the crew were pleasant to work with and conducted themselves in a very professional manner. The site was kept clean on a regular basis – probably better than we would do on our own.

For all of this, I credit the job supervisor, Bob England. He did an exceptional job and I feel we were fortunate to have him running the project.

A handwritten signature in cursive script, reading "Robert J. Sherman". The signature is written in dark ink and is positioned below the main body of text.
